

**ALL AFFORDABLE ACCESS LTD  
ACCESS MACHINE HIRE**

Our access machine division offers unique 24-Hr support, unbeatable hire rates and one of the widest selection of access machines in Auckland.

Our competitive prices, high levels of professionalism and customer service are what has brought us recognition in the industry. Our access machine experts are always on standby to help you.

**MAINTENANCE DIVISION**

The maintenance department regularly check and service every access machine. This ensures that our equipment always performs to your satisfaction, which results in less down time for you.

**CUSTOMER SERVICE EXCELLENCE**

We take pride in the efficiency of our work control systems and the Sales and Service people who look after every aspect of your job.

Be assured that our friendly staff will really make the difference to ensure your job runs smoothly. Your access machine will be delivered to your worksite hassle free and on time so that you can plan in confidence.

**DELIVERY SERVICE AND RANGE**

As you can see we have a wide range of scissor and boom lifts with platform heights of up to 20m. Refer to our website for further specifications. [www.affordableaccess.co.nz](http://www.affordableaccess.co.nz)

To make it easy for you we will organise transport for the machines to and from your work site.

If you need advice on the right equipment for the job please contact us and we will be happy to help.

**AFFORDABLE ACCESS LTD  
SCAFFOLD & FENCING HIRE**

Affordable Access is one of New Zealand's best aluminium and steel scaffold hire specialists.

Established in 2002 and proud to be 100% kiwi owned and operated, we provide advice and solutions for all your access needs.

Our branches in Auckland and Whangarei provide a complete range of products and services which cover design, delivery, erection and hire of small to large or complex scaffold systems.

Expect a unique approach from Affordable Access. It starts with the friendly, helpful attitude from the fully qualified scaffolders who man our phones.

It continues with our scaffold managers who work with you to develop an access solution that is best for you.

We will then provide you with an obligation free quote, and finally our qualified uniformed scaffolders will arrive in one of our fleet of trucks and erect the scaffold safely and efficiently.

STEEL & ALUMINIUM SCAFFOLD HIRE | BOOM LIFTS | SCISSOR LIFTS | TEMPORARY FENCING  
**FREE ON-SITE QUOTES**      **ACCESS HIRE MADE AFFORDABLE**

## SCISSOR LIFTS

**ELECTRIC SCISSOR LIFTS**  
 Designed for use on a slab or hard level surface.  
 Up to 12m working height.

**ROUGH TERRAIN SCISSOR LIFTS**  
 For use on uneven ground or worksites where power is unavailable for charging electric scissors.  
 Up to 18m working height.

## BOOM LIFTS

**ARTICULATED BOOM LIFTS**  
 Knuckle booms are used for reaching up and over obstacles and for reaching other elevated positions not easily accessible.

**TELESCOPIC BOOM LIFTS**  
 Stick boom lifts are especially useful for applications that require maximum reach.

## TELEHANDLER

Probably the most capable and versatile multipurpose machine available, the Telehandler is equipped with all wheel drive, all wheel steer, 3 steering models, a telescoping and lifting boom and can utilise a vast range of job specific, quick fitting attachments.
